PROFESSIONAL SUMMARY

Results driven **Data Engineer** with **2+ years** of experience building scalable data pipelines, ETL workflows, and cloud-based data solutions. Proficient in **Python, SQL, PySpark, Databricks, and Azure Data Services**. Experienced in designing modern data platforms, implementing data quality frameworks, and delivering reliable analytics solutions using medallion architecture and dimensional data modeling.

SKILLS

Programming: Python, SQL, Java, Linux

Data Engineering: ETL Pipelines, Data Validation, Data Modeling, Data Warehousing, Batch Processing

Big Data Technologies: Apache Spark (PySpark), Databricks

Cloud Platforms: Azure Data Lake Storage Gen2 (ADLS Gen2), Azure Data Factory (ADF), Databricks

Tools & Platforms: Git, Jira

Core Competencies: Stakeholder Management, Process Optimization, Root Cause Analysis

EXPERIENCE

Data Engineer

June 2024 – Present

Tata Consultancy Services (TCS)

India

- Designed and developed ingestion pipelines that integrate data from 5+ enterprise source systems, including POS, CRM, ERP, and e-commerce platforms using batch processing, CDC (Kafka) and REST APIs, reducing reporting time from 3 - 4 days to near real-time.
- Built scalable ETL pipelines in PySpark to cleanse, standardize, and transform data across Bronze, Silver, and Gold layers following the Medallion Lakehouse Architecture on Azure Data Lake Storage (ADLS Gen2).
- Designed dimensional data models using Star Schema to enable efficient downstream reporting and business analytics.
- Implemented Slowly Changing Dimension (SCD Type 2) logic for customer and product dimensions to preserve historical data integrity for sales and inventory reporting.
- Developed automated data quality validation frameworks including schema validation, row-count reconciliation, null checks, duplicate detection, and schema drift monitoring to improve data reliability.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

Graduated: 2023

Pranveer Singh Institute of Technology

Kanpur, Uttar Pradesh

- CGPA: 7.9 / 10

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)**

Azure infrastructure management, networking, security, identity, and cloud resource administration.

- Microsoft Certified: Azure Developer Associate (AZ-204)**

Developing cloud-native applications and integrating Azure services including Azure Functions, Storage, and API Management.
